IN THE UNITED STATES DISTRICT COURT
FOR THE WESTERN DISTRICT OF PENNSYLVANIA

DOGGIE DENTAL INC., *et al*., Plaintiffs, v. CDOFFICE, *et al*., Defendants.	Civil Action No. **FILED UNDER SEAL**

DECLARATION OF TAYLOR RAY
IN SUPPORT OF PLAINTIFF'S *EX PARTE* APPLICATION FOR ENTRY OF TEMPORARY RESTRAINING ORDER AND PRELIMINARY INJUNCTION

I, Taylor Ray, declare and state as follows:

1. I am over 18 years of age, and I have personal knowledge of the facts set forth herein. I make this declaration in support of Plaintiffs' *Ex Parte* Application for Entry of Temporary Restraining Order and Preliminary Injunction ("Application"). If called upon to do so, I could and would competently testify to the following facts set forth below.

2. In making this declaration, I represent the collective effort of a team of researchers for Ference & Associates, including myself, who conducted an investigation to determine if the identified Defendants were and/or are currently offering for sale and/or selling Infringing Products and whether each of the identified Defendants will ship and/or has actually shipped Infringing Products to the United States, including customers specifically located in Pennsylvania.

3. Prior to filing this Declaration, we accessed through Amazon.com the Merchant Storefronts[1] operating under the seller identities as identified on **Schedule "A"** of the Complaint (the "Seller IDs"). Upon accessing each of the Merchant Storefronts, we were able to view Defendants' Infringing Products[2], add products to the online shopping cart, proceed to a point of checkout, and otherwise actively exchange data with each Merchant Storefront. Through visual inspection of Defendants' listings for Infringing Products, it was confirmed that each Defendant is featuring, displaying, and/or using the Plaintiffs' Products, Plaintiffs' Works, and/or Plaintiffs' Mark without authorization and that the products that each Defendant is offering for sale, using virtually identical copies of Plaintiffs' Products, Plaintiffs' Works and/or Plaintiffs' Mark are, in fact, not genuine products. The checkout pages or order forms for the Infringing Products confirm that each Defendant was and/or is still currently offering for sale and/or selling Infringing Products through their respective Merchant Storefronts and User Accounts and that each Defendant provides shipping and/or has actually shipped Infringing products to the United States, including to customers located in Pennsylvania. At checkout, a shipping address located in the Pittsburgh area ("the Pennsylvania Address") in the Western District of Pennsylvania verified that each Defendant provides shipping to the Pennsylvania Address. We inspected the detailed web listings describing the Infringing Products Defendants are offering for sale through the Internet based e-commerce stores operating under each of their respective Seller IDs, and determined the products were not genuine versions of Plaintiffs' Products. These were sent to

---

[1] As defined in the Application, a "Merchant Storefront" is any and all User Accounts through which Defendants, their respective officers, employees, agents, servants and all persons in active concert or participation with any of them operate storefronts to manufacture, import, export, advertise, market, promote, distribute, display, offer for sale, sell and/or otherwise deal in products, including Infringing Products, which are held by or associated with Defendants, their respective officers, employees, agents, servants and all persons in active concert or participation with any of them.

[2] As set forth in the Complaint, Defendants have offered for sale, sold, and distributed infringing and knock-off versions of the Plaintiffs' Product which closely mimic the appearance of Plaintiffs' Product and infringe upon Plaintiffs' Mark and at least on the claims in its registered U.S. Patent, use Plaintiffs' Works, and otherwise unfairly compete with Plaintiffs' Product (the "Infringing Product").

Petros Dertsakyan, Chief Executive Officer of Doggie Dental Inc. True and correct copies of the detailed web listings we captured and downloaded showing the various Infringing Products listed via Defendant's Seller IDs, together with redacted copies of the order summary web pages and confirmation that Defendants were willing and able to ship to the Pennsylvania Address are attached hereto as **Composite Exhibit 1**.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

Executed the 25th day of February, 2021, at Pittsburgh, Pennsylvania.

Great Self Brushing Tool

Reviewed in the United States on September 16, 2020

Size: One Size | Color: Green | Verified Purchase

I've only used this 3 times, but it seems like it will hold up. My Golden loves it. I put a little pupper toothpaste on it and she goes to town. I would recommend it.

UPDATE: Well the third time I gave this to my girl, I didn't watch her as well and she chewed the bottom part off. It is a great tool, if you watch closely.

Very heavy duty! I feel like this will hold up to my dog Thunder. He's a four year old Great Dane/Saint Bernard mix. So far it appears to be a very well made dog toothbrush/chew toy.

I bought this to help with cleaning my dogs teeth. The trick is to get them to chew it. I put all kinds of things on it to make her chew it and she won't. I guess if your dog will chew on it that's great!

My 2-year-old dog is starting to get dental plaque. I should start brushing their teeth.It's not easy to keep such a big dog.When I saw this one, I was in the mood to give it a try, so I wanted to give it a try.I'm glad I did.Bristles are made of excellent materials that adhere to intensive chewing, so do it's job that they like toothpaste.After three days, there isn't much plaque left.

Not as durable as hoped!

Reviewed in the United States on January 11, 2020

My 18 lb Boston Terrior does like to chew on the toy, but has already bit off 2 parts of it. So, unfortunately, the chewing and teeth cleaning aspect won't work long since it will be in more pieces skon andnhave to be thrown away.

We got this for my daughters dog and he loves it!! You can put dog toothpaste in it to help clean the dog's teeth. It is very durable. I would buy again or for a friend or family.

The rubber toothbrush cleans your dogs teeth so you don't have to.

Reviewed in the United States on February 19, 2020

Size: Large | Verified Purchase

It is a rubber toothbrush basically. Our dog absolutely loves it. We were brushing his teeth manually, but now he brushes his own teeth by chewing on the dog toothbrush. We put dog toothpaste And peanut butter in it and around it. His teeth look beautiful!

My dog had no interest

Reviewed in the United States on April 21, 2020

Size: Large | Verified Purchase

I have a high energy, lab/hound mix who is interested in almost every toy we give him. From the start, he had no interest in this item. We tried to make it a big deal but he was just kind of blah about it. I will be returning.

My girl loved this the second I gave it to her! It seems to work well. Either way she loves to chew it and that's what matters most!

Dogs love it...

Reviewed in the United States on August 1, 2019

Honestly I like this product to keep them busy if I put peanut butter in the middle. They are occupied for 20-30 min. Love that!

I desperately wanted to love this dog toothbrush chew toy and even more so wanted our dogs and guest dogs to love it, but alas, that was not the case. Our dogs didn't even acknowledge that they got a new toy, even after I put peanut butter on it. I believe the smell of the rubber may have been too much for them to tolerate. We had one guest dog chew on it for a couple minutes, then just walk away. A couple weeks later we had a larger guest dog try chewing on it and within less than a minute they had broken big rubber pieces of the chew toy off (please note that the dog is an English Setter, a senior at nearly 11 years old, and in the last year had a few teeth removed). As soon as we noticed rubber chunks coming off the toy we took it away and disposed of it for the safety of our dogs and our guest dogs.

Light and solid. The steps' surfaces are comfortable and not slippery. It stays well on carpet and the rubber on the bottom doesn't let it slip on the floor in the bathroom.

Dog can brush his own teeth

Reviewed in the United States on October 6, 2019

Verified Purchase

Chewing is a natural dog behavior, so giving him a toy that allows him to brush his teeth while playing works out well. it keeps his teeth cleaner and gives him something to chew on that is safe for him. It's about the right size for a medium dog, it seems very durable and he likes it.

Great for small dogs!

Reviewed in the United States on September 12, 2019

Great toy for the price our little poodle loves it and chews on it a lot and its perfect for him. I would definitely recommend for small light chewers. Its perfect size for a small dog and not torn up easily. Overall very satisfied with it.

Very tough, My bulldog chews through every toy he gets, But so far, this one has withstood him. It cleans his teeth really well even without dog tooth paste. He seems like he really enjoys it

Libby loves her new toy. I love that it comes with a cleaning brush too. We put dog toothpaste on it so, she licks then chews it. It seems to be well made so I'm hoping chew it up fast.

Sheepadoodle approved!

Reviewed in the United States on September 18, 2019

Verified Purchase

Our dog chews on this 24/7 she seems to prefer this over the harder type chew toys. I think it massages her gums! It's held up to her puppy teeth so it's been great! It also comes with a straw type cleaner to get the residue from the toothpaste out.... I'm lazy and stuck it in the dishwasher and it came out sparkly so that's an idea too. Highly recommend especially for little puppy teeth.

Easy to use chew toy

Reviewed in the United States on August 28, 2019

Chew toy that positively contributes to dog health. This brush is easy to use. You place toothpaste in the middle and the dog will chew it. Mine was able to figure out how to use it correctly and now I don't have to manually brush his teeth anymore.

Disappointing

Reviewed in the United States on November 9, 2019

Verified Purchase | Early Reviewer Rewards (What's this?)

I was hopeful about this product because I got a similar item for my dog, just in a different design. I was so disappointed when my do managed to destroy this item in less that 15 minutes. She bit the arms of the cactus clean off in no time, creating a choking hazard. I had to take it away from her before she swallowed the pieces. I wish I had gotten a refund, but I never did. If your dog is a lazy chewer, this would probably be fine, but average to aggressive chewers will destroy this in an instant and probably choke on the pieces.

Dog hasn't touched it!

Reviewed in the United States on December 14, 2019

Verified Purchase | Early Reviewer Rewards (What's this?)

I'd been looking for a way to clean my dog's teeth until taking him to the vet. I ran across this and thought it was perfect. He could play and clean his teeth at the same time! Perfect right? Wrong! He hasn't touched it!!! I have a Chihuahua/Terrier mix, so I thought it would be easy to get him to play with it. Boy was I wrong;(I still recommend it if your pup isn't afraid of toys, as I believe it does what it's said to do. I'll definitely keep trying to get him to interact with it tho.

Good toy

Reviewed in the United States on December 4, 2019

Verified Purchase | Early Reviewer Rewards (What's this?)

My dog loves it. I think it's nice to be able to add her toothpaste to it however I wish the toothpaste spot went lower into the toy. Otherwise I have no complaints. It is a relatively new toy so it's too early to tell if it will help with her tartar build up.

Great product
Reviewed in the United States on October 15, 2019
Size: M | Verified Purchase

it seems to rival Seattle in rainfall lately. It rains for a week at a time, . Our dog was destroying our carpet with his mud filled paws despite the sea of towels at the back door and wiping them off.

This thing has been an absolute life saver, honest! I used it a few times “dry” on the dog to get him used to it but the bristles are soft silicone, he’s a prissy dog and tolerates it really well. It’s easy to clean after use, dump the water and rinse well with hot water.

I saw a similar product that popped up on my Facebook feed, but it was much more expensive, and I'm not even sure if the insides are removable on that one. When I shopped around on Amazon I found this product and I'm SO glad I did. I'm sure it will also come in handy when we take our dogs RV-ing!! Thanks for a great product!!!!

Great Product

This works great for the purpose that it was intended for, plus just as a normal chew toy. very durable and easy for my dog to hold..We also are putting doggy tooth paste in it and she is loving it! I would recommend this for any doggy owner.. Much better then those treats that are suppose to help with brushing.

I really don't think this thing helps keep my dog's teeth clean. Also, it's a pain to clean and she torn it apart in a few weeks. All that said, this suggestive toy keeps her entertained

Good for dogs that hate having their teeth brushed

Reviewed in the United States on August 15, 2019

Size: M | Verified Purchase

I have two small Jack Russell terrier mixes. They hate when I need to brush their teeth, but they seem to love this toy. I am honestly not sure how well it is brushing their teeth, but for the low price and entertainment value it seems like this is a good toy. There is a spot you could put peanut butter or a treat in the middle if you wanted, but my dogs liked it even without having any sort of food inside.

My dog loves it!

Reviewed in the United States on September 9, 2019

This dog chew keeps my dog busy throughout the day. It's just as durable as the brands like Kong. Looks new and he is a heavy chewer all day long. This is by far his favorite chew toy and the added bonus is that it cleans the teeth. Good investment to save on future vet bills.

This was a great purchase! At first, my dog was scared of this toothbrush. We put her favorite toothpaste into the top hole. After my dog start to chow on it.Maybe for it`s well made of natural rubber. Not only did it clean her teeth and give her a safe alternative to cleaner, health teeth it also kept her occupied for days. If your like me and always looking for safe and healthy ways to treat your dog, cat etc than this is definitely a product you will want to try out.The item came quick and as described. I have already recommended this product to friends,family and more people.

Lasted all of 3 minutes

Reviewed in the United States on December 7, 2019

Size: L: | Verified Purchase

The little bristle thingies started coming off and the base got chewed threw in the first 3 minutes (fresh out of the package). I bought this because a majority of the reviews claimed it was durable, but they may have been talking about a different brand (Amazon tends to mix up their reviews and all these toothbrush toys look alike). He did love it and started chewing immediately without paste or treats. It just fell apart immediately . Good thing it's " harmless natural rubber"... even though I'm sure he's eaten worse. They have a customer satisfaction guarantee but no way to get

in touch with them. I bought one for each of my dogs, im going to return them both. If I keep them they'll be gone in no time.

Great Toothbrush and Nail Clipper combo

Reviewed in the United States on March 10, 2019

Love that the toothbrush is a chew toy so my dogs can brush their own teeth! Have never been able to get them used to me brushing their teeth, so this is a perfect solution! I can put a little doggy toothpaste on and they brush as they chew and finish with fresh breath and cleaner teeth! The nail clippers are nice too.

OMG what is this chew tow made of?!?!

Reviewed in the United States on April 4, 2019

I received this toothbrush chew toy an hour ago, didn't even put toothpaste in it, and my 8 lb Yorkie went berserk with it!! I can't even get close to her/nor bribe her with a treat to get it away from her!!!!! I'm really concerned as the directions claim to pull the chew after 5 minutes! I can't get her to drop it, nor get near her!!!!! They must have put something in the plastic as I've never seen my little one so obsessive over anything before!!! Help! Is this thing toxic?? Should I throw it out?????

XIZHI Dog Toothbrush Chew Toy Dog Tooth Cleaning Stick Pet Toothbrush Dog Molar Stick Dog Toy Dog Toothbrush Natural Rubber Dog Toothbrush

by XIZHI

Price: $7.59 prime & FREE Returns

Get $70 off instantly: Pay $0.00 ~~$7.59~~ upon approval for the Amazon Prime Rewards Visa Card. No annual fee.

Color: **blue**

- Durable material: The toothbrush is made of natural rubber, non-toxic and environmentally friendly. The upgraded material is strong enough to resist dog bites and chews, with higher quality and longer life.
- All-round cleaning: The brush is covered with bristles on all four sides. Squeeze the dog toothpaste into the round hole, then the toothpaste will flow out of the hole and deep clean the dog's teeth.
- Stay healthy: It's a tool that cleans your dog's teeth. A soft enough tooth prevents damage to the dog's gums, which helps them clean the dog's teeth and protect their teeth. Keep your dog healthy and fresh, and enjoy a private time with your puppy.
- Add aroma: You can infuse milk or sweet mint to stimulate chewing and increase palatability. Both dogs and humans feel fresh and pleasant, and dogs are more interested in this new toy and like to chew it in large quantities.
- Color size: blue, 5 inches X 4-3/4 inches X 1-3/8 inches.

DON'T WASTE YOUR MONEY! DOG DESTROYED IN SECONDS!

Reviewed in the United States on February 23, 2019

Color: M - (25-40lbs dogs)

Our 15lb Morkie totally destroyed and began eating this toy in less than 5 minutes! Once he got a few chunks off, he didn't want to stop! We had to get rid of it or he would have devoured the whole thing. Design didn't work----dog was clueless about how to use it. He ended up eating the base! Maybe base could have been made of heavier "stone bone" material?
VERY disappointed. We bought toothpaste and everything, hoping this would last longer than a few minutes!!!
Kong or Bark Bone, Nerf, or Stone Bone are 100% better for keeping the dog who needs to chew busy for hours!
Only gave it 1 Star in order to get posted.

Size: **M**

- Durable material: The dog toothbrush stick is made of durable natural soft rubber, which has the effects of tear resistance and bite resistance, which is strong enough for dogs.
- Safety and Cleaning: Dog toothbrush sticks can help dogs clean their teeth and prevent gum damage. Dogs are advised to chew toothbrushes under your supervision. Use them for five to ten minutes. Excessive chewing will cause a new burden on the gums.
- Reasonable design: Dog toothbrush sticks are covered with soft bristles. We also included a small finger toothbrush, perfect for puppies. There is a base on the bottom of the dog's toothbrush stick, which can hold the toothbrush to the ground so that the dog can easily grasp it.
- Easy to clean: The rubber material is very easy to clean and you can clean the dog toothbrush stick directly in the dishwasher. To keep your dog's teeth healthy, you can clean them before and after they chew.
- Money Back Guarantee: We can provide you with a money back guarantee, if you have questions about the quality of your dog's toothbrush stick, you can always contact us. We will do our best to bring you the best user experience.

Puppy loves it!

Reviewed in the United States on April 13, 2020

Size: L | Verified Purchase

I have a Labrador puppy who chews everything apart. So far she has not even chewed a tiny bit off this and she chews it every day. It can be used as is, or you can squeeze dog toothpaste into the bottom and as the puppy chews, toothpaste will squeeze out from the tiny holes on the sides. If you choose to use toothpaste don't use much or it will make a mess.

I bought this for my pup and was quite excited to use this product because it would keep my pup busy while I'm away and clean his teeth! 2 in one. Description states that it's bite resistant & that's the main reason I bought this product. He didn't show much interest to this when I first introduced it to him. So I left it with him at night & woke up this morning to find that my pup destroyed this thing. Pieces were scattered across the floor.

Worth every penny!!

I can honestly say I am so pleased with this product! My dogs, Penny and Phantom, have always been difficult to groom, but this dog tooth brush was a real game changer. Not only does it make dental hygiene a breeze but it is also super helpful for trimming my pups nails! I put peanut butter on the inside of it and it's such a great distraction while i snip those claws. All around this is a great tool and will forever be a staple in my dogs hygiene routine!!
Plus for the price, you get so much! For less than $14, we received a high quality product that takes care of two dogs. Definitely got the bang for my buck!!

I love that these are durable and easy to clean. Having two is great because we leave one in our motor home. Also I love the finger brush and that it has a carry cover. Keeping my pup's teeth clean is so much better than taking him to the vet to have it done.....AND less expensive!

This was 2 minutes after i gave it to my golden retriever. The other one i gave to my gsd went on a similar road.

Aside from the lack in product quality, customer service response time and communication is great. Had the issue fixed with sellee in no time.

The toy was of interest to my dog, 55lb boxer. I put some dog toothpaste inside the cavity, away he went. Saw he was chewing on it as he was supposed to, "cleaning" his teeth. Left him alone for a few minutes, came back to a half destroyed toy, pieces all over. My pup didn't eat the pieces, continued chewing on the solid piece. I guess that is why they provide two. The finger tip brushes work great, dog has no problem with hands in his mouth, brushing his teeth was easy.

Brushes are good, poor quality otherwise

Reviewed in the United States on August 25, 2019

My dog is not one to destroy toys or anything, but he tore off pieces of this within 5 minutes.

The brushes for teeth brushing work well, but I wish I would have purchased them separately and not spent the money on the other piece of this package.

The reason I went with this product after reading the reviews of 'other' similar "teeth-cleaning" toys, was Kaier's claim... MORE DURABLE THAN OTHER SIMILAR PRODUCTS. Unfortunately, while the dog played with the toy in front of me for around 15min., the end was chewed off (where the toothpaste goes) and there were no pieces in the dog bed - they were ingested. Dogs need to brush also

Reviewed in the United States on January 31, 2020

Size: Large Color: Sky Blue **Verified Purchase**

I-pure dog toothbrush

This chew toothbrush is one of the best there is. It is hard enough the dog cannot destroy it in days. If at all can destroy it. If you have a big dog. The bonus of being able to put stuff in it is wonderful. I've been able to stick peanut butter and all her other favorite items in it. The chew I s very durable that she has not been able to ruin any of the prongs. The way the prongs are designed to hold of a product in. That you're putting in for longer chew time. This is designed just like top brand dental chews.. The only difference is this will last forever the others they eat and digest. You can fill and use over and over again.

It's made of a really strong plastic/silicone flexible material. This helps to last for years. Thevpronges rub up against the dogs teeth to clean and remove left over debre/junk. Helping the dog to clean mouth up. Nice product for cleaning and a play toy!

Good Size! Excellent quality, dog loves it too!

As you can see my dog took right to this! This was with nothing on it too. the shape and the nuns are going to be excellent for cleaning her teeth. The shape of the base also allows her to hold it between her paws while she chews on it. This also came with a brush for cleaning between use which is really handy! She's been chewing it a while now and hasn't chewed any pieces off which is so unusual! I normally have to throw these kind of things away after just a short time as my dog can be very destructive to these kind of materials, but not this one! It's holding up beautifully already!

Great for teeth

My dog absolutely love this!!! Bought this as a replacement for an old one that somehow managed to disappear outside for a few weeks and got gross. I love the blue color of this one and my dog carries it around the house and plays with it when it's plain and has a field day when we put peanut butter on it. We don't do doggy tooth paste because he is younger and honestly this chew keeps his teeth clean right up into the gum line without anything . Highly recommend this product. There are 2 sizes we went for the smaller and our dog weighs about 52 lbs and is a decent size.

Did not have to coax my dog to chew on it!

Reviewed in the United States on January 28, 2020

Size: Large Color: Sky Blue **Verified Purchase**

This toothbrush has a nice vanilla (?) scent right out of the package. It is made of a heavy solid rubber that seems likely to hold up to serious chewing. First I tried some peanut butter on it (Scooby's favorite) and he immediately ran off and licked/chewed it clean. Won't have to coax him to chew on it. Included is a small brush to clean between the bristles and it is dishwasher safe although I haven't had to do that yet. Happy with this purchase.

A winner for sure!

I was rather skeptical about this dog "toothbrush" but my big puppy's stank breath had me trying anything. I mean, basically a chew toy, right? Let me just say that this thing is STURDY. My fur baby has gone through NUMEROUS chew toys that were supposed to be unbreakable. This? She loves it and has not destroyed it. Add the puppy toothpaste and we are both happy. We don't all pass out when she yawns. I'd say this is a winner.

when you're too lazy to brush your dogs' teeth...

Reviewed in the United States on February 4, 2020

Both of my dogs have some pretty rough morning breath and have previously had to have teeth pulled... I've tried Greenies (which are super expensive), actual teeth brushing, and then using my finger/toothpaste to brush their teeth. The biggest problem is consistency... you need to do these things on a regular basis if you want to see results. I purchased some canine toothpaste separately and both of my dogs go to town on this thing. You can put it in the dishwasher, which is great. The shape of it is slightly obscene, but it allows the dogs to hold the brush with their paws ;)

I have tried using dog toothbrushes in the past, what a pain. My dog is a chewer so this is perfect for him. I just spread a little peanut butter on it a and he chewed in it for hours.
It is a great size for any dog. It also has 2 feet on the bottom for easy gripping for your dog. This is dishwasher safe for easy cleaning.
I highly recommend this!

Works for both dogs

We have a 70 lb and a 30 lb dog so I decided on ordering this as I thought it would work well for both of them. The 70 lb one has terrible smelling breath and hates to have his teeth brush so having toothpaste inside a chew toy works well for him. The 30 lb one destroys anything so I had to get one that would survive her checking. So far so good!

Chaco

Chaco's favorite

Reviewed in the United States on April 18, 2020

Verified Purchase

Mine had no rubber smell. Chaco likes it better than his regular rubber chew balls. I don't use the toothpaste and it keeps his teeth clean. He's an 85 pound pit bull and its held up to his chewing for almost a year now. If he ever does wear it out, I'll buy another one.

Don't buy it

Reviewed in the United States on May 8, 2019

Verified Purchase

It said that is non toxic but this smell like cheap rubber I even have to throw it away because I don't trust this for my dog.

Ample base makes it easy to hold onto

Reviewed in the United States on September 19, 2019

Color: Green | Verified Purchase

How fun to share this with my dog. He immediately took the larger one from me right out of the box and started to chew on it. I think this is going to work out well once I add the toothpaste. It's very easy for him to hold onto this since it has a generous base. My dog is a little guy—17 lbs. It is almost too big for him but not quite.

not durable as advertised

It took our dog five minutes to turn the so-called "upgraded" chew toys into pieces of rubber.

Soft rubber

Reviewed in the United States on November 24, 2019

Verified Purchase

Unsafe and very weak product. Our 15 month and 20 pound mixed breed dog chewed on it for less than 10 minutes and he was already breaking the product apart (specifically the toothbrush stick). How is this supposed to be a dental toy when the rubber is so soft that it breaks so easily? DO NOT purchase this product. Not sturdy at all. The rubber pieces will break when your dog chews on it in no time.

Peanut butter on a toothbrush, yummmmmm

Reviewed in the United States on November 25, 2019

Bella seems to like her new toy, she likes it a whole lot more with peanut butter spread on it. We have only had the chewers for a couple of days, I'm sure she will be chewing on it a bunch.

Big dogs will chew through anything, including this! My Cane Corso LOVED it and it worked great for cleaning his teeth. After about 15 minutes I noticed he was chewing off chunks of the green rubber.

Best Dental Kit!!!

This kit is fantastic! I have a Labrador and a Golden Retriever. Both of them love the toys. Especially the treat ball, it's durable with great scents and they just can't stop play with it. I will definitely consider to purchase another kit in future.

Fun fetching toy

Reviewed in the United States on April 18, 2020

Size: Large(For 40~80 lbs Dog) | Color: Green | Verified Purchase

Well made my Corgi love this (toy) he only want to use this as a fetching toy. Has no interest in using as a tooth cleaner. He has many toys to choose from in his toy basket, but at playtime he brings me this to throw.
Super sturdy will last a long long time.

About this item

- Safe and Easy To Use: The Zadyx Dog Chew Toothbrush is made of 100% natural rubber, which is totally safe for your dog. This dog toothbrush toy is also shaped like a real bone, with a light-azure color that will surely catch your dog's attention.
- Irresistible Scent: This pet toothbrush is infused with a fresh and long-lasting mint aroma, enticing your dog and making his/her mouth watered right from the moment you open the package. Be careful though, because your dog might just decide to chew it all day without getting bored.
- Full-Mouth Dental Cleaning: Bristles are covered on all sides of this dog toothbrush stick, making it almost impossible to miss any germs inside your dog's mouth. Rigid bristles also help grind away plaque and loosen tartar in hiding places. When used with toothpaste, this dog chew toothbrush can be quite powerful, compared to other methods.
- Highly Versatile: Not only can it be used as an effective toothbrush, but it's also a fascinating toy that your dogs just can't take their eyes off of. Make sure to clean the toothbrush and put them away after each use, to help preserve the scent longer.
- MONEY BACK GUARANTEE - Our dog chew toys have been strictly tested by factory, also we provide LIFETIME REPLACEMENT GUARANTEE. If for any reason you are not completely satisfied with it,

Didn't last 5 minutes

Reviewed in the United States on June 9, 2019

Verified Purchase

My dog destroyed this brand new "toothbrush stick" in less than five minutes. If I hadn't pulled it away, she would have easily chewed off the base and may have swallowed it. Just use a dog toothbrush, as it is much more reliable in the end.

★★★★★ **Works great**

Reviewed in the United States on August 28, 2019

Has lasted quite well and paired with doggy toothpaste has improved their doggy breath. My biggest issue is with how it looks. I live with 4 grown boys and their dad that spent time in the Navy. This thing just increases the feeling of living in a frat house.

Product was for dog to chew and keep his teeth clean. He won't look at it at all. What scent is it supposed to have? He snorts and backs away and this dog loves to chew.

Its easy to use and very strong, my don't didn't like it very much, she is a 5 months mix shepherd, while she loves to chew everything, but I think it's because is hard. That is why I suggest it might be good for big dogs, but the product is great

Pretty durable.

Reviewed in the United States on June 2, 2019

A bit hard to clean and my dog ends up chewing the bottom more than the top. Although I will say we bought one before this and he bit thru it immediately so this one is much better!

★☆☆☆☆ **Dog won't chew it**

Reviewed in the United States on June 4, 2019

I have tried everything...peanut butter flavored toothpaste, actual peanut butter, shoving meat in the bristles, yogurt, etc. All my dog does is lick the thing. She never chews it. Any suggestions before I return this? It's quite frustrating because the ad said this is good for the dog's teeth but I don't see how.

Very useful for my dog!
Reviewed in the United States on March 27, 2019
Color: Medium Green - Upgrade Version | Verified Purchase

Just what my dog needs. The rubber material part is not too soft or too hard, should last a long time. It didn't seems to bothered my dog at all. I hold it for him but looks like he likes it better if he hold it himself. This toothbrush stick is easy to clean.

EXTREMELY DURABLE
Reviewed in the United States on April 25, 2019

I have purchased a couple of these dental chewers that said they were durable and within minutes they were in pieces with my lab. I add a little dog friendly toothpaste in the top and she loves chewing on it and it has been amazing! Definitely recommend for your dog that loves to chew!

It works!
Reviewed in the United States on May 26, 2019
Color: Large Green - Upgrade Version | Verified Purchase

I was sceptical. My Golden is a big chewer, and destroys every toy he can sink his teeth into, so I honestly thought this would be going back to Amazon in pieces within one day. He actually uses it as intended. He chews the heck out of it and it remains intact. Seems to be helping to clean his teeth. His breath is better, and some tartar is starting to diminish in his back molars. His other teeth look better as well. AMAZINGLY well constructed! Very impressed!

Not for heavy chewers.

Love the idea of this toy, and add some peanut butter and both my dogs love it. Does keep them busy, but does not hold up with heavy chewers.

Doggo takes to it right away. Innovative and durable chew. Probably not substitute for brushing

Reviewed in the United States on December 8, 2019

Verified Purchase

We used peanut butter at first to get our dog going on it, so the transition to doggo toothpaste was seamless. Our dog enjoys the chew but TBH tends to just lick the goods out of it more than chew it. Either way it stimulates his interest enough that it kept him occupied through an entire episode of Veep, which for us outstanding. We're trying various tricks and he's starting to chew or at least gum it more, but at the end of the day it's more of a "maintenance" device -- something that stimulates your dog and occupies them for a while in a constructive way, but if you are looking for something that will clean your dog's teeth outright there really isn't a substitute for straight brushing.

Pretty good

Reviewed in the United States on January 1, 2020

Arrived on time and as expected. I have two dogs and got them each one (another from another co. because they had a different color and I wanted to keep them separated). Both products basically the same, as advertised. But my dogs were able to chew right through them pretty fast. Not surprised, because they always do, was just hoping this was one of those products where they couldn't or would be so distracted by the treats inside that they wouldn't quite so fast.

Not what I thought

Reviewed in the United States on March 11, 2020

Unfortunately this did not work for my dog at all. He used it for a couple of minutes and then got tired of it. Every time I re introduce him to it again, he goes through the same process. He really loves playing and biting his teeth through everything he can - that's actually why I went with this. But did not work for us. I'm sure it works well for others just wish it would have worked for my furry one too!

What's there to say, works as expected. Dog didn't like it at first but once I smeared it with things he likes (yogurt, cream, liver wurst, etc) he it got into it. The two paw handles are very useful for him to grab. Plastic is a soft silicone type that seems like it will last.

My dogs love it!!

I love this!!! It keeps both of my dogs entertained for hours. My dogs wrestle over who gets to chew on this. Especially when I add chicken toothpaste to it! I love that it cleans their teeth while they chew on it because it saves me time with manually brushing their teeth.

I have three dogs and two if them LOVE chew bones of any sort. We bought 2 and neither would go near this product. We changed toothpastes and still no love. Not for our pups.

Too big for small dogs, and smells so bad of rubber or tire. Ugh.

Very disappointed. Ordered what was supposed to be for dogs under 15 lbs, I ordered the smallest available, and it is still too big!! Would like to return both of them.

I don't have much time to take care of my dog, because I'm busy with my work and other things, my dog has just one year old this year, one day, I found my dog a little boring at home, it seems to have tired of the toys, I think you want a new toy, I bought it molar stick, pet doctor told me, just turned one year old dog need to grind, otherwise it will damage your furniture, I listen to the doctor's advice, bought this toy, great is my dog loves this toy, and latex toys picked up and is very light, look good quality, it is a good product

Corgi/Chihuahua mix. He loves ripping out then chewing on the plastic squeakers from his dog toys. Plush dog toys can get messy also, way too much cotton. The moment I opened and handed him this toy he started chewing it like a beast. He absolutely loves it, and I can tell it feels great on his teeth and gums. It's super durable as well! Great purchase.

My dog loves this chew toy. She's an aggressive chewer and likes to hold this upright with her paws at the base. Sometimes I smear a little peanut butter on it to entice her. Good size too!

Dog Toothbrush Stick - check !

Reviewed in the United States on July 14, 2019

Great concept, rubber seems durable, size is a little big for my small dogs, BQI & Bones reason gave four stars. As dogs age they need tooth care not only to not have bad teeth but to keep the dog breath to minimum. All and all nice product durable and can see how can keep dogs occupied while cleaning their teeth.

a bit big for my cavapoo

Reviewed in the United States on June 5, 2019

Verified Purchase

my dog doesn't mind it, however it is big for him so I have to hold it for him and angle him to use it. We put toothpaste in it and he would just lick the hole with the toothpaste until its all done then he starts to chew on the stick. I have to keep an eye on him when I give it to him or he will chew this thing up. I will continue to use it and learn to use it better. It is worth trying this out. I like the concept since my dog hates regular toothbrushes.

Durable enough for my power chewer

Reviewed in the United States on March 2, 2020

Verified Purchase

I am loving this new toothbrush toy for my lab. She's a very aggressive chewer, but this has held up to her. She was so happy to find the squeak! She enjoys it so much that I have used it with other things as well...works good for supervised play with peanut butter also. I definitely recommend this product. It's very durable and quite cute.

Sturdy, squeaky and dog-approved!

Reviewed in the United States on April 10, 2020

Verified Purchase

My dog is a heavy chewer and he doesn't have many toys because he destroys them so soon. I knew this one is sturdy out of the box. The bottom squeaks and it has a coconuty smell to it. The dog likes to play with it too. He would fetch and lick it but I'm trying to get him used to chewing it.

Good buy!

Reviewed in the United States on March 29, 2020

I waited a few days before writing a review to ensure that my dogs did not destroy it. I am not disappointed the dogs love the toy and I love the benefits it has of cleaning their teeth.

Great entertainment

Reviewed in the United States on March 29, 2020

Verified Purchase

The squeaker in the base is winning! My puppy likes to chew the little thorns off but it happens because I left him alone with it (only reason for the 4). It's great to either put yummy toothpaste or peanut butter in the thorns and it keeps my pupper entertained for a while. Freezing it prolongs the entertainment as well.

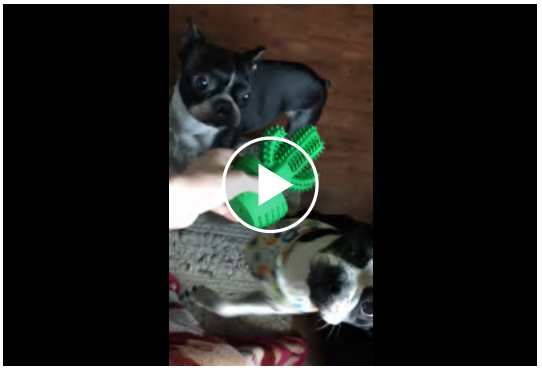
Great Durable Toy! Highly Recommend!

Reviewed in the United States on March 8, 2020

Verified Purchase



My Boston Terriers year through pretty much every dog toy they have ever had. Most toys last a few minutes tops. This toy however stands up to the rest with flying colors. Not only is it tough but seemingly indestructible when it comes to enduring my dogs. I am a cactus fanatic so I think this toy is also an adorable way to share my love of plants with my pets. Being able to add dog toothpaste to the center is an added bonus making this toy even better. The brush cleaner for the center makes it super easy to clean out any left over toothpaste residue with ease.

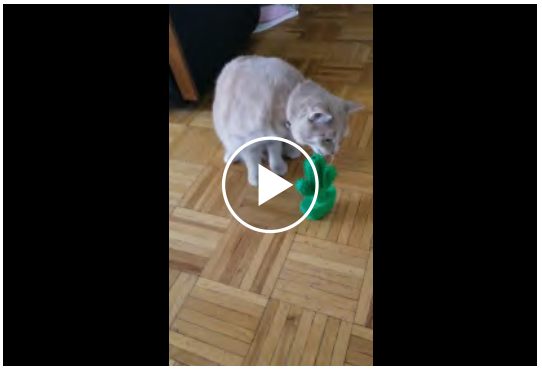
Dog Toothbrush Toy which might be good for cats as well

Reviewed in the United States on March 14, 2020

Verified Purchase



I purchased this Dog Toothbrush Toy for my daughter's dog. However, before I could give it to her, much to my surprise, my cat wanted to try it. Being able to clean my cat's teeth has always been very difficult. However, with this new item, a challenge has been made easy. All I had to do was put a small amount of toothpaste into the hole, and now my cat's teeth are brushed. I am so pleased with my purchase.

More than just a toothbrush!

Reviewed in the United States on April 2, 2020

Verified Purchase

This is such a great toothbrush! It's very easy to squeeze some toothpaste (dog toothpaste, of course) in the center and it comes out into the grooves without making a huge mess everywhere. We've also used it as a treat holder and is great to put peanut butter on for crate time! This toy is sturdy, easy to wash in the dishwasher, and very well-loved by my dog. Highly recommend this versatile toy!

Bought a second one as a gift!

Reviewed in the United States on March 5, 2020

Verified Purchase

I purchased a second one as a gift for my friend with a new puppy. It comes with a little cleaning brush, which is super helpful! I filled the ridges with dog toothpaste, and then refilled it with mashed banana to keep him interested for longer. The fact that it also cleans his teeth is an awesome bonus.

Didn't work...

My dog had little interest in using this to clean his teeth. He destroyed it within an hour. If your dog isn't a strong chewer, you might have better luck.

Was hopeful that this would work.

Reviewed in the United States on August 16, 2019

My dog smelled it and pushed it aside. He hasn't touched it once. I tried adding some toothpaste to it - no go. Tried adding some meat broth on it to get him interested - nothing. Waste of money. It's a great concept - just didn't work.

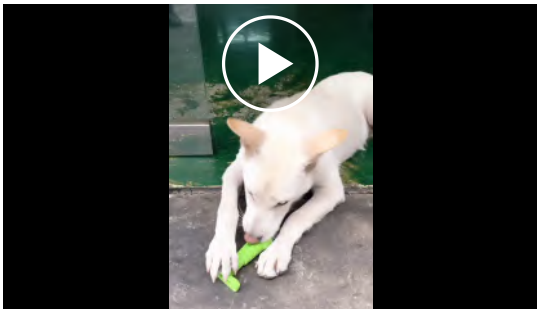
So far so good!!

Reviewed in the United States on January 15, 2019

Verified Purchase



This is cute! It is just like the images posted by the seller, and you do get one bone-shape silicone toothbrush. It's green with soft bristles. the handles are nice long and soft, can be bent if you want. Comfortable to grip and use. The bristles are nice and don't fall out. They seem like they are embedded pretty firmly.

Bigger dog owners beware: smaller than I thought

Reviewed in the United States on February 21, 2019

Great concept but my dog has zero interest in it. She's not much for toys anyways but I was looking for an alternative to force brushing her teeth. Also it is much smaller that I thought it would be and there was only one side option.

Dogs don't like this

Reviewed in the United States on January 29, 2019

Verified Purchase

I bought 4 different kinds of these "tooth cleaners" for my dogs: sadly they are not a hit with the pack. This one, like the others, are made pretty well and it seems by the design most are all made by the same company. This one however is different and may be for smaller dogs. My biggest complaint is the hole to fill the toothpaste is a little smaller than the toothpaste tube so it squeezes all over the top before going into the dispenser area where it's supposed to fill in the nubs. Once I filled this teeth cleaner the dogs (especially my fox terrier) were ok with licking the toothpaste, but wanted nothing to do with this brush.
If it had worked I still think it would have been an easier way to brush the dog's teeth. Sadly for me it didn't work so it's back to the toothbrush and tarter sprays.

And the dog toothbrush stick has bristles on all sides help to clean clean dental plaque which hides in the dead corner, remove it and prevent decay. Your lovely dog will love this fun chew toy!
- 【Clean&Teeth Massage】Our dog toothbrush chew toy added the faint milk scent and sweet smell that dog loves, so your lovely dog will be more interested in the new dog toothbrush and enjoy chewing it. When the dog chews it, it can effectively clean the dog's teeth, keep the breath fresh and healthy.
- 【Easy to Clean】The dog rubber toy material is very easy to clean and can be cleaned in the dishwasher. In order to keep the dog chew toothbrush clean, we suggest to clean it before and after dogs chew it. Suitable for small medium and Large dogs, also for aggressive chewer.
- 【Protect Your Dog's Oral Health】The dog toothbrush toy is soft enough to prevent damage to the dog's gums, it can help them to clean teeth and protect them from oral diseases. Make your dog oral healthy and fresh, so you can enjoy the happy time with your lovely dog.

Sturdy and flexible.

Reviewed in the United States on April 26, 2020

My Rottweiler loves this dog chew toothbrush!! He plays with it all day, and I'm happy because not only is he having fun but he's also cleaning his teeth by himself, it is really helping removing some of his plaque, and it's very sturdy and flexible.

Make sure your dog will actually chew the toy

Reviewed in the United States on December 16, 2019

Size: M | Color: Blue | Verified Purchase

I don't think there is anything wrong with the product. My dog doesn't really bite the toy. She just licks away the tooth paste. So it doesn't really do much for cleaning her teeth.

★★★★★ **COOL Doggy Toothbrush!**

Reviewed in the United States on August 22, 2019

Size: L | Color: Green | Verified Purchase

Well it's been a week and my dog hasn't destroyed it, that's definitely a plus. Its awesome and simple to use, I apply the toothpaste and he does the rest thinking it's one of his toys. It's great I give it Points for durability and functionality.

My dog so joyful when i give it to her, she just fly and jumps, why i didn't get this earlier. This rubber is much firmer and durable than cheaper models that sell for about the same price. Less expensive units also have no bottom to the hole. I love this brand! Will buy again for my friends dogs.

The toothbrush was really easy to set up and use. My dog loved it and I could instantly tell the difference in his teeth. He has grown tired of greenies recently so this is a great new alternative to keep his teeth healthy. The toothbrush has held up perfectly and has not crumbled despite his gnawing.

★★★☆☆ **Short lived**

Reviewed in the United States on August 2, 2019

Size: L | Color: Green | Verified Purchase

This dog toothbrush was probably doing a great job, but it couldn't even last the recommended five minutes at a time without my lab mix getting chunks out of it. I doubt it's made with the best materials. Now that there are little chunks missing it takes no time to ruin the brush further. It won't be long until it's more of a choking hazard than a toothbrush.

I really thought this would be the best product. I was wrong. My 15 pound dog chewed it up on the 3rd try. I have to throw it out.

Expensive chew toy

Reviewed in the United States on May 8, 2019

Verified Purchase

The "toothbrush" is not working for us as I had hoped. My boxer likes it and will toss it around a bit to play, and will chew on it a bit and lick it when I put dog toothpaste or peanut butter on it His front teeth get a workout..but not the ones in the back. Some of the paste stays in the ridges and is hard to clean out. As far as I am concerned it is an expensive, chew toy. ..not the miracle toothbrush that it is advertised as.

My dog licks the toothpaste off

Reviewed in the United States on June 17, 2019

Verified Purchase

This is a great idea for a product and my dog likes to chew on it. However, the part she likes to chew on is the handle—not the part with the bristles. Also, when I put toothpaste in it, she licks it off and tenderly bites with her front teeth. So, it doesn't end up getting any of her difficult to reach back teeth. She likes it, but it doesn't do what I bought it for. It might work for other dogs though.

Tastes if bitter rubber and didn't work for my dog

Reviewed in the United States on July 25, 2019

Verified Purchase

this is durable and could be cleaned in a dishwasher. It would work if your dog knew to hold it upright and balance it btwn their paws. It should work and do what you hope it does but your dog won't know what it's for most likely. They will want to lick like a kong not chew..not my dog at least.

I don't blame my dog for not wanting to chew it..it smells and tastes like straight up bitter rubber. I wouldn't consider that a plesant means of oral care..

Definitely Interactive!!

Reviewed in the United States on April 14, 2019

Verified Purchase | Early Reviewer Rewards (What's this?)

My puppy is still trying to figure this out. When she sees the paste, she starts to lick it out (like her Kong toy). I am trying to get her to bite it - which is totally bizarre because she chews constantly!! I think this will be really great once I convince her to chew it and stop trying to lick out the paste. She did bite down a bit so I think she's going to get it.

★☆☆☆☆ **Horrible Chemical Smell**

Reviewed in the United States on April 21, 2019

Verified Purchase

This smells horribly of chemicals and I will not be giving this to my dog. No minty smell as advertised. Made in China which makes me question the BPA free, food grade material, again as advertised. Even though I didn't give it to my mini dachshunds, they would have ripped it to shreds in no time.

★★☆☆☆ **My dog didn't like it**

Reviewed in the United States on September 2, 2019

Verified Purchase

For some reason our Basset Hound has ZERO interest in this toy. Maybe it's the smell or texture of it, but he refuses to even touch it. So we have no idea how durable it is. But I'm still going to give it two stars just because it looks like an excellent toy and appears to be made really well. Wish we could have gotten more use out of it.

★★★☆☆ **A bit disappointed**

Reviewed in the United States on April 17, 2019

Verified Purchase | Early Reviewer Rewards (What's this?)

I was really excited to get this product, unfortunately after about 4 days my 40# dog had it destroyed. He was definitely interested in it but the toothbrush just could not hold up to his chewing. I am disappointed that for the price it did not last more than a few days.

★☆☆☆☆ **Did not work for my dog**

Reviewed in the United States on June 23, 2019

Verified Purchase

It looks like a good idea, maybe it is. But I found it difficult to stuff with anything of interest to my dog and she refused to find it interesting enough to chew on. I tried carrots, kibbles and a few other things but as for my mutt, it did not deliver.

- HEALTHY SAFE MATERIAL: The dog toothbrush stick is made of natural rubber which is eco-friendly. Soft texture designed to be safe for your dog's gums, and it will not hurt your dog's health and helps them to clean their teeth and protect them from oral diseases. More sturdy and will not be chewed off easily.
- NOVEL DESIGN: This toothbrush stick covers with bristles on the top and has a holding base on the bottom. Rigid bristles helps to grind away plaque and loosen tartar in hard to reach places. And Toothpaste can be inserted toothpaste along the bristle lined grooves which helps pets to clean their teeth deeply. Besides, a three-head toothbrush comes with the product.
- AROMATIC MINT FLAVORED: The dog toothbrush stick is infused with a sweet mint flavor that stimulates chewing and increases palatability. The fresh smell is pleasing for both dogs and humans, and dogs will have more interest in this new toy and enjoy chew it a lot.
- GUARANTEE: We try our best to bring the best use experience to our customers. If you are unhappy with your purchase. Please contact our team anytime you want.

First day

Reviewed in the United States on August 29, 2019

Verified Purchase

This is only the first day. It was hard to get him to give it up. Our younger dog (9 months), we call him scissor teeth, got a bite out of it in a few minutes. I should have taken It from him at the three minute mark. But there is still plenty of toothbrush for him to use. The dog in the photo had plaque when we adopted him. He chewed on it and loved it. I am hopeful this product will continue to be received well and I will no longer have to fight him tending to his teeth. His brush stayed in tact.

Perfect for my 6 mo old German Shepherd puppy

Reviewed in the United States on September 23, 2019

Verified Purchase

This is incredible. I don't really know how well it cleans her teeth yet because she is young and her teeth are beautiful. But I use a bit of dog toothpaste on it and she loves to chew on it. I only give it to her when we're eating and it keeps her busy through our entire meal and then I take it away until we sit down to eat again. It's a perfect size for her.

Don't waste your money!

Reviewed in the United States on September 20, 2019

Verified Purchase

We were so excited to get this for Lola. I've enclosed a picture of how it looked 10 minutes after we gave it to her. It looked good, it sounded good but the product was chewed (broken) into bits in 10 minutes. I am hoping my dog did not swallow the piece that is still missing. A good concept gone very bad with materials that will not hold up to a dog chewing it. A MAJOR DISAPPOINTMENT, DON'T WASTE YOUR MONEY!!!!!!!

A Total Disapointment

My dog loves to chew anything except this toothbrush. I have tried putting dog toothpaste and even something tasty in it just so he uses it. I play fetch and he won't retrieve it and my dog will

fetch anything. This was a total waste of money.

Didn't last 5 minutes

Reviewed in the United States on June 9, 2019

Verified Purchase

My dog destroyed this brand new "toothbrush stick" in less than five minutes. If I hadn't pulled it away, she would have easily chewed off the base and may have swallowed it. Just use a dog toothbrush, as it is much more reliable in the end.

Works great

Reviewed in the United States on August 28, 2019

Has lasted quite well and paired with doggy toothpaste has improved their doggy breath.
My biggest issue is with how it looks. I live with 4 grown boys and their dad that spent time in the Navy. This thing just increases the feeling of living in a frat house.

My dog will have nothing to do with it.
Reviewed in the United States on July 4, 2019

Product was for dog to chew and keep his teeth clean. He won't look at it at all. What scent is it supposed to have? He snorts and backs away and this dog loves to chew.

First time use is a success.

Reviewed in the United States on September 12, 2019

Verified Purchase

Please note I am writing this review as my dog is using it for the very first time. So my knowledge of this product is limited. However, my dog appears to be using this intuitively. I put dog poultry flavored tooth paste in the top hole which oozes out of small holes on the sides. My dog is very infatuated with getting all the poultry flavor out and seems to be cleaning her teeth in the process. So far I am very pleased with the product.

Before purchasing this product, my dog would not let me brush her teeth after many attempts. So I had to give this product a try. I get her teeth cleaned once a year under anesthesia.. but plaque and tartar builds up only months after each cleaning. I needed to do something.

I am hopeful this is the "something" that needs to be done.

I am also pleased that this gives her something to do while cleaning her teeth. It keeps her occupied and stimulated.

Doesn't hold up to a strong chewer

Reviewed in the United States on November 11, 2019

Verified Purchase

After reading the description and comments it sounded as though this could handle my dog's strong jaws. Unfortunately it wasn't true. The description said to limit their time to 4-5 minutes. In 2 minutes flat my dog had large chunks out of this. What a disappointment and waste of money.

Chewed pieces off in less than 5 minutes!

Reviewed in the United States on July 30, 2019

My 9 pound miniature dachshund had this for 5 minutes and was able to chew and eat the end. Not durable as stated. Most likely will end up with a veterinary bill as well. Don't buy.

Great toothbrush

I purchased this toothbrush for my Pomeranian. My dog hates having his teeth brushed so this was a great purchase. His breath used to be unbearable but now I can tell a noticeable difference

unless your dog is a big chewer this is just kinda cute to watch the dog play with. Our dog chewed part of it on the first use and he isn't really a big chewer. Didn't notice any change in his teeth health.

Perfect dog toy! We have a new puppy who loves to chew on EVERYTHING! This is giving her a chew toy but also helping keep her teeth clean which is awesome! So far she hasn't been able to destroy it like other toys so that's a huge perk also!

Not bad...does the job

Reviewed in the United States on December 27, 2019

My pup is eating through this blue toy slowly...but she loves it. And it looks like it is cleaning her teeth. But I still brush it for her. My only issue is the green one makes me nervous because it is too small....I think she will choke on it. It should be a little bigger.

Great price for great product

Reviewed in the United States on November 11, 2019

Verified Purchase

I have used a few other brands of the chewy toothbrush before and was very hesitated to purchase this one when I first found it on Amazon (new brand with no reviews) But now, I am totally satisfied as my doggie loves it and my buddy just can't stop chewing and playing with it when it first came out the box. The product is well made as manufacture used thicker rubber (some products I purchased before had very thin material, so they only last for very few weeks) Cross my fingers to hope this one will last longer.

My dog loves it!

Reviewed in the United States on December 14, 2019

My dog loves it! It keeps her teeth clean and is great for a teething puppy. I like that you can put a treat or dog toothpaste in it but my dog likes the scent so much you don't have to add anything to it. Very durable and withstand my pit bull that destroys most toys in minutes.

- 【Upgrade of Rubber Materials】 We use food-grade rubber materials, which are more durable, environmentally friendly and safer than previous similar products, with better bite resistance and chewability, higher quality and longer service life.
- 【Nursing Dog's Oral Health】 Our products can guide pets to brush their teeth to reduce the burden on their owners. Compared to ordinary toothbrushes, our chewing toy toothbrush can prevent damage to the dog's gums, effectively help dogs clean their teeth and reduce pet odor.
- 【Extremely Good Design】 The design of the concave and convex grooves and the serrated brush head automatically cleans the teeth during the biting process of the dog. The brush head of our product is longer than other similar products on the market, the number of raised points is more, and the arrangement is more scientific. The base is long and flat, which makes it more convenient to use.
- 【Comes with A Cleaning Kit】 The beef-flavored toothpaste(2.7ounces) in the kit can better attract dogs to brush their teeth, helping to keep teeth clean and healthy gums. Regular brushing freshens breath, helps to reduce plaque and bacterial build-up. The kit also includes a small brush head (used to clean areas not reachable by the large brush head) and a TPR finger brush (easy to control the intensity and area of brushing)
- 【Cautions】 Do not allow your dog to bite and chew the toothbrush for more than ten minutes at a time. Ten minutes is enough to clean the teeth. Do not use the dog teeth cleaning toothbrush for too long,

Kinda small but durable and works!

Reviewed in the United States on April 30, 2019

Color: green | Verified Purchase

Ordered it for $10.99 & I did expect it to be a little bigger. It's a little longer than my hand. I wish it would be a little bigger esp for my husky. For $10.99 and small, kind if a slight negative for me.

My blue heeler demolishes everything! I read that you are only supposed to let your dogs chew on these brushes 5-10 mins a day. She did it for 5 mins. The smallest bristles were still intact! Don't even see any teeth mark scratches on the brushes after she chewed it. She didn't understand what it was because she smelt the toothpaste & hates that stuff. So I had to act like it was a throwing toy. After that, she loved it. I could tell some of the tartar and treats stuck between her back teeth were gone.

My husky who likes to chew natural shed deer antlers. He is a rescue. Previous owners never played with him so what I tried with my heeler didn't work with him. He doesn't understand toys & such still. He licked it mostly. Kind of nibbled it softly. In all it'll take him a little longer to warm up to it but so far I could see a little tartar cleaned off his bottom front teeth.

Does not stand up on its own really, Dog doesn't seem to have any desire to chew on it, no matter the paste. Maybe others have better luck.

Keeps my little puppy so busy. He is more focused on chewing on this than on things he shouldn't.This is literally the greatest bone! My dogs prefer this brand over anything else.

My doggy loves it !

My niki loves it!The little feet are a great idea, gives her something to hang on to while she chews. Looks like it's going to last a while too.
I put some doggie toothpaste in it and he chewed and played with it until I put it up! Nice soft but firm rubber material.

Pups don't approve

Reviewed in the United States on May 10, 2019

Verified Purchase

Sturdy product but will be giving away as my pups won't use it. One of my dogs looks at it like he has no clue what to do. The other licks as much as he can. No fault of the product just preference of the pup. My pup who did lick it had difficulty making it stand also. Maybe if the bottom were larger it would have been an easier product to use.

I bought it for my puppy and she does now I passed it to the new puppy and he loves it

Timothy

Good size and looks great. Could be harder plastic for a large dog. But I'm about to give it to my dog to see how it fares.
