IN THE UNITED STATES DISTRICT COURT
FOR THE WESTERN DISTRICT OF PENNSYLVANIA

DOGGIE DENTAL INC., *et al*., Plaintiffs, v. AVANTDIGITAL, *et al*., Defendants.	Civil Action No. **FILED UNDER SEAL**

DECLARATION OF TAYLOR RAY IN SUPPORT OF PLAINTIFF'S *EX PARTE* APPLICATION FOR ENTRY OF TEMPORARY RESTRAINING ORDER AND PRELIMINARY INJUNCTION

I, Taylor Ray, declare and state as follows:

1. I am over 18 years of age, and I have personal knowledge of the facts set forth herein. I make this declaration in support of Plaintiffs' *Ex Parte* Application for Entry of Temporary Restraining Order and Preliminary Injunction ("Application"). If called upon to do so, I could and would competently testify to the following facts set forth below.

2. In making this declaration, I represent the collective effort of a team of researchers for Ference & Associates, including myself, who conducted an investigation to determine if the identified Defendants were and/or are currently offering for sale and/or selling Infringing Products and whether each of the identified Defendants will ship and/or has actually shipped Infringing Products to the United States, including customers specifically located in Pennsylvania.

3. Prior to filing this Declaration, we accessed through ebay.com the Merchant Storefronts[1] operating under the seller identities as identified on **Schedule "A"** of the Complaint (the "Seller IDs"). Upon accessing each of the Merchant Storefronts, we were able to view Defendants' Infringing Products[2], add products to the online shopping cart, proceed to a point of checkout, and otherwise actively exchange data with each Merchant Storefront. Through visual inspection of Defendants' listings for Infringing Products, it was confirmed that each Defendant is featuring, displaying, and/or using the Plaintiffs' Products, Plaintiffs' Works, and/or Plaintiffs' Mark without authorization and that the products that each Defendant is offering for sale, using virtually identical copies of Plaintiffs' Products, Plaintiffs' Works and/or Plaintiffs' Mark are, in fact, not genuine products. The checkout pages or order forms for the Infringing Products confirm that each Defendant was and/or is still currently offering for sale and/or selling Infringing Products through their respective Merchant Storefronts and User Accounts and that each Defendant provides shipping and/or has actually shipped Infringing products to the United States, including to customers located in Pennsylvania. At checkout, a shipping address located in the Pittsburgh area ("the Pennsylvania Address") in the Western District of Pennsylvania verified that each Defendant provides shipping to the Pennsylvania Address. We inspected the detailed web listings describing the Infringing Products Defendants are offering for sale through the Internet based e-commerce stores operating under each of their respective Seller IDs, and determined the products were not genuine versions of Plaintiffs' Products. These were sent to

---

[1] As defined in the Application, a "Merchant Storefront" is any and all User Accounts through which Defendants, their respective officers, employees, agents, servants and all persons in active concert or participation with any of them operate storefronts to manufacture, import, export, advertise, market, promote, distribute, display, offer for sale, sell and/or otherwise deal in products, including Infringing Products, which are held by or associated with Defendants, their respective officers, employees, agents, servants and all persons in active concert or participation with any of them.

[2] As set forth in the Complaint, Defendants have offered for sale, sold, and distributed infringing and knock-off versions of the Plaintiffs' Product which closely mimic the appearance of Plaintiffs' Product and infringe upon Plaintiffs' Mark and at least on the claims in its registered U.S. Patent, use Plaintiffs' Works, and otherwise unfairly compete with Plaintiffs' Product (the "Infringing Product").

Petros Dertsakyan, Chief Executive Officer of Doggie Dental Inc. True and correct copies of the detailed web listings we captured and downloaded showing the various Infringing Products listed via Defendant's Seller IDs, together with redacted copies of the order summary web pages and confirmation that Defendants were willing and able to ship to the Pennsylvania Address are attached hereto as **Composite Exhibit 1**.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

Executed the 29th day of April, 2021, at Pittsburgh, Pennsylvania.

/s/Taylor Ray

NEW Rubber Toothbrush Stick Chew Toy Kit For Small And Medium Dog Tooth Brushing

- MATERIAL: the dog toothbrush is made of natural rubber, no harm to the dog's gums and health. This soft material will make dog's gums feel comfortable.
- SCIENTIFIC DESIGN: the density of brushing points with scientific arrangement is high. The holding base in dog paw shape will make dogs catch the product more firmly. Length of brush head is longer than all products in same size-grade in market. There are 5 rows brushing points will clean dog's teeth in all direction.
- EASY TO CLEAN: It is easy to clean rubber material with the included Small wire brush stick. It is better to clean the dog toothbrush before and after use.
- MULTI-FUNCTION: Just insert toothpaste or your puppy's favorite treat into the non-squeaky dental pet toy and let it do all the brushing.
- 100% SATISFACTION GUARANTEE - Our worry-free 12 month warranty and friendly customer service will ensure your satisfaction is our top most priority.

Size:Small Package Includes: 1 × Dog Toothbrush **Specification:** Material: 100% natural rubber Size: 12.6CM (5") ×12.5 CM(5")×4 CM(1.6") Weight: 90g Pet's Favorite: Pets in the tooth changing stage will feel itchy teeth and need some items to relieve the discomfort of the mouth. The product can effectively prevent dogs from ruining furniture at home. **How to Use:** 1) Squeeze toothpaste into the hole on the top of the dog toothbrush. 2) Let the toothpaste flow into the tank and come out from the small holes along the bristles. 3) Allow your dogs to chew or play with it. Kindly Note: a) This size of dog toothbrush is only for dogs between 1-45 lbs. b) Rubber material is soft and strong, but this toothbrush is used to clean teeth instead of a chew toy. It will be broken after a long time of use, so we suggest you use it 5 -10 minutes once a day.

Product description:

- Hands free brushing dogs-The material is a soft rubber that kind of massages the gums and can help get stuff off the teeth and toothpaste around in their mouth.
- It helps freshen their breath and gets some of those after dinner particles loose in there.
- The Dog Toothbrush Stick solves the world's most widespread problem among dogs – Dental health.

Specification:

- Weight: 90g
- Color: Green,Blue,Pink
- Material: Food grade rubber
- Size: Medium 12.6 x 12.5x 6 cm

Package Contents:

- 1*Dog Toothbrush Chew Stick

How To Use:

- First, let your dog adapt to grinding their teeth on the brush for several uses, before adding toothpaste into the top reservoir.
- Do not add toothpaste onto the bristles, because they may just lick it off.
- Some dogs may need extra help than orders to start brushing, but once they do its effects will start working.
- Once your dog begins chewing, be sure to reward them so they understand chewing on it is good.
- In no time their gum health and teeth will be in excellent shape!

Notice:

- Your dogs may need a lot more encouragement to chew on rubber toys.
- To start, play games using the stick, such as "tug," to get your dog to want to get it. It is flavored for your dog to enjoy.
- If your dog still resists, try stuffing peanut butter, coconut oil, treats or food inside the reservoir to encourage your dog to bit on it.
- Some dogs may need multiple sessions to adapt to.

Material: Food grade rubber

Usage:
Allow your dog to chew on the Brushing Stick for Dogs for about 10 minutes at a time.
This is enough time to clean his teeth, but not so long that he 'll get bored of it.
When his or her 10 minutes are up, you should take the stick and put it up until next time

Product description:

- Hands free brushing dogs-The material is a soft rubber that kind of massages the gums and can help get stuff off the teeth and toothpaste around in their mouth.
- It helps freshen their breath and gets some of those after dinner particles loose in there.
- The Dog Toothbrush Stick solves the world's most widespread problem among dogs – Dental health.

Specification:

- Weight: 90g
- Color: Green,Blue,Pink
- Material: Food grade rubber
- Size: Medium 12.6 x 12.5x 6 cm

Package Contents:

- 1*Dog Toothbrush Chew Stick

How To Use:

- First, let your dog adapt to grinding their teeth on the brush for several uses, before adding toothpaste into the top reservoir.
- Do not add toothpaste onto the bristles, because they may just lick it off.
- Some dogs may need extra help than orders to start brushing, but once they do its effects will start working.
- Once your dog begins chewing, be sure to reward them so they understand chewing on it is good.
- In no time their gum health and teeth will be in excellent shape!

Notice:

- Your dogs may need a lot more encouragement to chew on rubber toys.
- To start, play games using the stick, such as "tug," to get your dog to want to get it. It is flavored for your dog to enjoy.
- If your dog still resists, try stuffing peanut butter, coconut oil, treats or food inside the reservoir to encourage your dog to bit on it.
- Some dogs may need multiple sessions to adapt to.

Convenience to clean
This dog toothbrush can be washed directly with water and soap, or in a dishwasher. To prevent bacterial growth, it should be cleaned after each chew.

Help dogs to brush teeth easily
This dog toothbrush toy will not move around. It has paw pad to stand well and can helps the dog to hold it well.You just need to give it to your dog to chew **under your supervision**,3-5 minutes each time.

How often should I brush my dog teeth?
Talk to your vet to find out exactly how many times a week your breed of dog needs to have their teeth brushed. That being said, the minimum number of times you should brush your dog's teeth is once a week. Try and aim for at least twice a week, this will prevent periodontists and other oral and dental problems

What is the best way to use the long dual toothbrush and finger piece?
Whether you are using the smaller or larger brush, always brush your pet's teeth in circular motion. With small circles, you will be able to clean the top, bottom, and sides of your dog's teeth. Place the piece onto your index finger and use it to gently clean the precise areas. Don't brush too hard or you will cause bleeding.

What toothpaste should I use for my dog?
Make sure to buy a toothpaste that is especially for dogs. Human toothpaste can be poisonous and harmful to pets. Let your dog lick a little of the dog toothpaste to get used to the flavor. If she doesn't like

Item specifics

Condition:	New: A brand-new, unused, unopened, undamaged item. See the seller's listing for full details See all condition definitions	Brand:	Unbranded
EAN:	Does not apply	MPN:	Does Not Apply

Product description:

- Hands free brushing dogs-The material is a soft rubber that kind of massages the gums and can help get stuff off the teeth and toothpaste around in their mouth.
- It helps freshen their breath and gets some of those after dinner particles loose in there.
- The Dog Toothbrush Stick solves the world's most widespread problem among dogs – Dental health.

Specification:

- Weight: 90g
- Color: Green,Blue,Pink
- Material: Food grade rubber
- Size: Medium 12.6 x 12.5x 6 cm

Package Contents:

- 1*Dog Toothbrush Chew Stick

How To Use:

- First, let your dog adapt to grinding their teeth on the brush for several uses, before adding toothpaste into the top reservoir.
- Do not add toothpaste onto the bristles, because they may just lick it off.
- Some dogs may need extra help than orders to start brushing, but once they do its effects will start working.
- Once your dog begins chewing, be sure to reward them so they understand chewing on it is good.
- In no time their gum health and teeth will be in excellent shape!

Notice:

- Your dogs may need a lot more encouragement to chew on rubber toys.
- To start, play games using the stick, such as "tug," to get your dog to want to get it. It is flavored for your dog to enjoy.
- If your dog still resists, try stuffing peanut butter, coconut oil, treats or food inside the reservoir to encourage your dog to bit on it.
- Some dogs may need multiple sessions to adapt to.

Product description:

- Hands free brushing dogs-The material is a soft rubber that kind of massages the gums and can help get stuff off the teeth and toothpaste around in their mouth.
- It helps freshen their breath and gets some of those after dinner particles loose in there.
- The Dog Toothbrush Stick solves the world's most widespread problem among dogs – Dental health.

Specification:

- Weight: 90g
- Color: Green,Blue,Pink
- Material: Food grade rubber
- Size: Medium 12.6 x 12.5x 6 cm

Package Contents:

- 1*Dog Toothbrush Chew Stick

How To Use:

- First, let your dog adapt to grinding their teeth on the brush for several uses, before adding toothpaste into the top reservoir.
- Do not add toothpaste onto the bristles, because they may just lick it off.
- Some dogs may need extra help than orders to start brushing, but once they do its effects will start working.
- Once your dog begins chewing, be sure to reward them so they understand chewing on it is good.
- In no time their gum health and teeth will be in excellent shape!

Notice:

- Your dogs may need a lot more encouragement to chew on rubber toys.
- To start, play games using the stick, such as "tug," to get your dog to want to get it. It is flavored for your dog to enjoy.
- If your dog still resists, try stuffing peanut butter, coconut oil, treats or food inside the reservoir to encourage your dog to bit on it.
- Some dogs may need multiple sessions to adapt to.

Condition:	New: A brand-new, unused, unopened, undamaged item. See the seller's listing for full details See all condition definitions	Country/Region of Manufacture:	China
Type:	Toothbrush	Formulation:	Chews
Brand:	Unbranded	UPC:	Does not apply

Designed to clean teeth on both sides and is angled to fit comfortably in your pet's mouth

Encourages pets to clean their teeth every day

Meat flavored toothbrush makes cleaning teeth an enjoyable experience for your pet and promotes chewing

Soft texture designed to be safe for your dog's gums

Self-dispensing toothpaste for cleaner teeth

Contains stabilizing base so that your pet can hold the toothbrush easier

Material: Food grade rubber

Usage:
Allow your dog to chew on the Brushing Stick for Dogs for about 10 minutes at a time.
This is enough time to clean his teeth, but not so long that he 'll get bored of it.
When his or her 10 minutes are up, you should take the stick and put it up until next time.
