IN THE UNITED STATES DISTRICT COURT
FOR THE WESTERN DISTRICT OF PENNSYLVANIA

PAWESOME PRODUCTS LLC, *et al*., Plaintiffs, v. COLORFLOWERS, *et al*., Defendants.	Civil Action No. **FILED UNDER SEAL**

DECLARATION OF DEE ODELL
IN SUPPORT OF PLAINTIFF'S *EX PARTE* APPLICATION FOR ENTRY OF TEMPORARY RESTRAINING ORDER AND PRELIMINARY INJUNCTION

I, Dee Odell, declare and state as follows:

1. I am over 18 years of age, and I have personal knowledge of the facts set forth herein. I make this declaration in support of Plaintiffs' *Ex Parte* Application for Entry of Temporary Restraining Order and Preliminary Injunction ("Application"). If called upon to do so, I could and would competently testify to the following facts set forth below.

2. In making this declaration, I represent the collective effort of a team of researchers for Ference & Associates, including myself, who conducted an investigation to determine if the identified Defendants were and/or are currently offering for sale and/or selling Infringing Products and whether each of the identified Defendants will ship and/or has actually shipped Infringing Products to the United States, including customers specifically located in Pennsylvania.

3. Prior to filing this Declaration, we accessed through the respective Third Party Service Providers, the Merchant Storefronts[1] operating under the seller identities as identified on **Schedule "A"** of the Complaint (the "Seller IDs"). Upon accessing each of the Merchant Storefronts, we were able to view Defendants' Infringing Products[2], add products to the online shopping cart, proceed to a point of checkout, and otherwise actively exchange data with each Merchant Storefront. Through visual inspection of Defendants' listings for Infringing Products, it was confirmed that each Defendant is featuring, displaying, and/or using the Plaintiffs' Products, Plaintiffs' Works, and/or Plaintiffs' Mark without authorization and that the products that each Defendant is offering for sale, using virtually identical copies of Plaintiffs' Products, Plaintiffs' Works and/or Plaintiffs' Mark are, in fact, not genuine products. The checkout pages or order forms for the Infringing Products confirm that each Defendant was and/or is still currently offering for sale and/or selling Infringing Products through their respective Merchant Storefronts and User Accounts and that each Defendant provides shipping and/or has actually shipped Infringing products to the United States, including to customers located in Pennsylvania. At checkout, a shipping address located in the Pittsburgh area ("the Pennsylvania Address") in the Western District of Pennsylvania verified that each Defendant provides shipping to the Pennsylvania Address. We inspected the detailed web listings describing the Infringing Products

---

1 As defined in the Application, a "Merchant Storefront" is any and all User Accounts through which Defendants, their respective officers, employees, agents, servants and all persons in active concert or participation with any of them operate storefronts to manufacture, import, export, advertise, market, promote, distribute, display, offer for sale, sell and/or otherwise deal in products, including Infringing Products, which are held by or associated with Defendants, their respective officers, employees, agents, servants and all persons in active concert or participation with any of them.

2 As set forth in the Complaint, Defendants Plaintiffs are suing Defendants for infringing on their US Patent. Defendants have willfully infringed one or more of the claims of U.S. Patent No. 10,477,838 ("Plaintiffs' Patent" or "the '838 patent") by offering for sale, selling, and distributing knock-off versions of Plaintiffs' BRISTLY® dog toothbrush (the "Infringing Product") which closely mimic the appearance of Plaintiffs' genuine product within this district and throughout the United States by operating e-commerce stores established at least via the Internet marketplace website Amazon.com, eBay.com, Aliexpress.com, or wish.com, under their Store Names and Seller Names identified on Schedule "A" hereto (the "Seller IDs").

Defendants are offering for sale through the Internet based e-commerce stores operating under each of their respective Seller IDs, and determined the products were not genuine versions of Plaintiffs' Products. These were sent to Cindy Ghusakyan, the sole Member of Pawesome Pet Products LLC. True and correct copies of the detailed web listings we captured and downloaded showing the various Infringing Products listed via Defendant's Seller IDs, together with redacted copies of the order summary web pages and confirmation that Defendants were willing and able to ship to the Pennsylvania Address are attached hereto as **Composite Exhibit 1**.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

Executed the 28th day of, 2022, at Pittsburgh, Pennsylvania.

/s/Dee Odell

OVERVIEW CUSTOMER REVIEWS (0) SPECIFICATIONS Report Item

describe
The dog toothbrush stick toy is made of non-toxic and environment-friendly natural rubber. We have upgraded the material to make the dog toothbrush stronger, can withstand the chewing of dogs, and has a longer and softer life, so as to protect the health and safety of dogs' gums. We design different sizes and types for different dogs. Please see the detailed picture for the specific size. A proper toothbrush can make a dog fall in love with his brushing. It can also help them clean their teeth and protect against oral diseases.
Design: teeth cleaning bristles are raised and relatively soft. They can massage gums and teeth, protect dogs' teeth from oral diseases and keep their breath fresh. The dog toothbrush can be used with any dog toothpaste and thoroughly cleaned to remove tartar and plaque.

Item Dimensions LxWxH	3.7 x 3.7 x 5.7 inches
Handle Material	Rubber
Target Audience	Dog

About this item

- [[Dental Care:]] The super-soft, silica gel based toothbrush features dozens of nubs that your furry friend finds very playful to bite and chew on. He might not know it but he's doing himself a huge favor as the bristles help grind away plaque and tartar buildup, leaving behind clean, shiny teeth and a refreshing breath.
- [[Bite Resistant Build:]] When your four-legged companion finds something soft, his biting instincts kick in, forcing him to clench on it with all his might. But don't worry, the rubber toothbrush is not easy to force out of form. It's wear-resistant natural thick rubber that can withstand powerful bites without showing signs of deformation.
- [[Toothpaste Hole:]] All you need is, squeeze some toothpaste down the hole on top and wait for it to travel down the narrow tunnel. When your dog will bite on it, the small holes within the bristles will squeeze out the paste in small quantities for a full-mouth cleanup. You can throw in delicious treats such as peanut butter or flavor it up with a tinge of Nutella to excite him up.
- [[Stress Relief:]] If your dog suffers from separation-anxiety or undergoes depression, which reflects in his gnawing habits on the couch or scrapes on the furniture – this toothbrush will provide an effective stress-relief. With each bite, your pooch will feel more calm and relaxed, shedding anxiety completely over time.

- 🐶【High Quality and Health】: Dog chew toothbrush stick toy is made of natural rubber which is non-toxic and eco-friendly, safe, and harmless.
- 🐶【Unique Design】Different molar bumps, for brushing different sizes of dogs and their different teeth. The serrated grooves helps clean tartar in the back teeth more effectively. Adding food into the inner aisle increases the fun.
- 🐶【Cleaning and Protection】This toy dog toothbrush is designed as a tool to clean and freshen your dog's teeth itself. After adding toothpaste or favorite food on the grooves, let your dogs brush their own teeth and freshen their own breath! You will no longer be bothered by how to brush your baby dog's teeth. The dog toothbrush stick is soft enough to prevent hurting the dog's gums. It can protect them from oral diseases.

About this item

- High Quality and Health--This pet educational brushing toy is made of natural TPR material, which is more reliable than normal rubber, environmentally friendly, safe, non-toxic and harmless.
- Unique Design--Different molar bumps, for brushing different sizes of dogs and their different teeth. The serrated grooves helps clean tartar in the back teeth more effectively. Adding food into the inner aisle increases the fun.
- Cleaning and Protection--This toy dog toothbrush is designed as a tool to clean and freshen your dog's teeth itself. After adding toothpaste or favorite food on the grooves, let your dogs brush their own teeth and freshen their own breath! You will no longer be bothered by how to brush your baby dog's teeth. The dog toothbrush stick is soft enough to prevent hurting the dog's gums. It can protect them from oral diseases.
- Solve Problems In Play--Playing with this toy often can ease your dog's anxiety and bring fun to the dog. This toy can also perfectly solve the problem

About this item

- HEALTH SAFE MATERIAL - Dog toothbrush stick toys are made of safe silicone material. Dog chewing toothbrushes are strong enough to withstand dog bites and chewing, with better quality and longer service life. Dogs like the smell, it attracts them to chew.
- MULTIFUNCTIONAL TOY - The cactus-shaped dog chew toy can be used for chewing, and at the same time it makes a squeaking sound to attract the dog's interest, cultivate the dog's trust and understanding, and reduce the dog's pressure. It can remove the residue in the dog's mouth and massage the gums.
- 360 ALL-ROUND CLEANING - After adding toothpaste or favorite food in the mouth of the dog toothbrush, your dog can hold the anti-slip strips with paws and brush their own teeth, freshen breath. The fresh smell is pleasing for both dogs and humans, and dogs will have more interest in this new toy and enjoy chewing it a lot.

About this item

- You will get two precious and well-packaged dog toothbrush toys: a green molar stick and a green molar ball. The green molar ball has a slight mint smell. It can help clean teeth and prevent the accumulation of plaque and tartar. You can squeeze the toothpaste into the green teeth stick and let the dog brush his teeth.
- These durable dog balls are made of non-toxic natural rubber materials: they are more durable, healthy and puncture-resistant compared to PVC and TPR. You don't have to worry about the dog being able to break it easily, this is not an easy task.
- A multifunctional dog bite toy that can be both brushed and fed: The toy stick can squeeze toothpaste into the middle, allowing the dog to play while brushing its teeth. The protruding parts on both sides are convenient for the dog to press and use, and are more firm. The toy ball can be stuffed into a dog's snack. Your pet will easily accept this toy and get more surprises when playing.

About this item

- Natural Material & Durable: Comes entirely from a natural source, it is non-toxic and eco-friendly. The texture is upgraded and more durable for heavy chewers, while keeps being soft to protect your pet's gums. Ideal dog accessories, for dogs under 50 lbs. We recommend supervising your doggy chewing it daily for 3 -5 minutes. Save doggy from oral diseases and enjoy doggy kisses from today!
- Easy to Use: This dog chew teeth stick features 2-sided bristle line grooves. When dogs are chewing and biting, their teeth are surrounded by bristles to the gumline, the dental plaque and tartar will find no way to hide. There also is a toothpaste reservoir, you can squeeze dog toothpaste into the stick for enhanced cleaning
- Stabilizing Paw Pads: Allows very easy holding for your dogs. Dogs will be encouraged to chew the stick from all directions, in order to clean even hard-to-reach back molars. Add little treats into the stick can make doggies more interested
- Sweet Mint Flavored: Promote chewing and increase palatability, fresh smell to both dogs and person. The dog toothbrush cleaning stick can be cleaned with soap and water, it is also dishwasher safe

About this item

- [Upgrade Material] Dog toys are made of 100% natural rubber, safe, environmentally friendly, protect the dog's gums, and always pay attention to the dog's health and safety. The dog's chewing stick can satisfy the dog's natural chewing , and can quickly clean the teeth when playing, thereby providing more health care.
- [Use assistant] The dog toothbrush stick squeezes the toothpaste into the hole at the top, and then allows the dog to chew within 5 minutes. Clean with water and detergent after chewing. Please note that our dog toothbrush is suitable for dogs of 20-90 pounds.
- [Clean teeth] Ordinary dog toothbrushes are difficult to clean teeth thoroughly. The new molar stick can automatically clean the teeth when the dog is playing and remove tartar caused by long-term dog food consumption. The long-lasting and neat bristles in the toothbrush help to clean the plaque hidden in the dead ends and protect the dog's health.
- [Dog's interest] The shape of the plant attracts the dog's interest. As a dog game product, it can
