- CALMING ANXIETY RELIEF: This fidget sensory board is designed to gently ease anxiety in seniors, dementia-related agitation, and autism stress. Through soft fidget actions like pushing, peeling, wrapping, and fitting, this fidget board provides a soothing sensory experience that helps calm emotions, refocus attention, and reduce restless behaviors. This fidget tool is ideal for anxiety relief.
- SAFE AND GENTLE MATERIAL: Made from high-quality, non-toxic silicone that is soft, durable, and easy to clean. This silicone sensory board offers dual-sided texture for varied tactile stimulation while being gentle on hands, ensuring safety and comfort for seniors and giving families peace of mind. The Montessori approach enhances this sensory board.
- PORTABLE AND VERSATILE: Lightweight with a handy carrying bag, this busy board is perfect for use at home, nursing homes, rehab centers, or on-the-go during appointments or travel. It provides a steady calming focus for seniors, helping prevent anxiety in public spaces. This portable fidget board is versatile.

- Enlarged Sensory Board Yisryerow sensory activity board has passed the CPC certification and is made of high-quality non-toxic silicone. The silent fidget toy features an enlarged square silicone board measuring 7.9×7.9 inches, along with 30 vibrant and soft silicone strips. Among them, 20 are long silicone strips and 10 are short silicone strips, providing children with more room for creative play.It is suitable for parent - child interaction activities as well as individual play.
- Foster Children's Creativity The structure of this fidget board is interesting and fun.It can enhance children's hands - on ability during play. Children can create different shapes and patterns, stimulating their creativity and imagination. Through tactile actions such as pushing, peeling, looping, bridging, tying, twisting, and sliding, the unique fidget toy can improve fine motor skills and hand - eye coordination and help to enhance children's attention and concentration.
- Quiet Moments Our sensory toys have different designs on both sides, offering two ways of playing for children. The travel toy for kids can create a quiet and screen-free environment, allowing children to play games in public places such as a car, an airplane, a hospital, and a restaurant, ensuring they have something to do during the journey. Our sensory board also comes with a convenient storage bag for easy carrying around, so that children can play anytime and anywhere.
- Relieve Stress This relaxing quiet fidget toy can help children calm down, relieve stress and anxiety, and bring a sense of achievement.The calm down corner supplies have an extremely long play lifespan and serve as a creative outlet, bringing soothing ASMR feelings, which are very suitable for channeling nervous emotions. It is suitable for people of all ages, from preschool children and teens to adults. If the silicone sensory fidget board gets dirty, it can be cleaned with water.
- Recommended by Occupational therapists The occupational therapy tools are highly trusted by professionals and are an excellent gift for children with autism, ADHD, ADD, OCD and special needs. The product is good, especially the board looks made of good material. It should be taken into account that the strips do not hold upright, to create 3D figures like those in the advertisement because they are very thin. But it's very good to carry in the bag and play in the car.

Exactly as advertised! Double sided with different patterns on both sides and colorful silicone "strings". Bought these as party favors for my daughter's birthday party. Great value compared to amazon!
